OBJECTIVE

As a student at St. Joseph's Institute of Technology to obtain a challenging position where I can utilize my skills, experience, and passion to contribute to the success and growth of the organization while continuously enhancing my professional abilities.

EDUCATION

(PURSUING) Bachelor of Electronic and Communication, at St Josephs Institute of Technology with 7.9 CGPA (2021 - 2025) Qualified 12th with 89 percentage, N.P.S.S.R.K.Rotary Matric Higher Secondary School. (2020-2021) Qualified 10th with 83 percentage, N.P.S.S.R.K.Rotary Matric Higher Secondary School. (2018-2019)

SKILLS

Technical Skills : C, Data Analytics, SQL,HTML,CSS.

Soft Skills : Teamwork, Leadership, Communication‘

INTERNSHIP

NSIC

- Participated in a training program at NSIC, acquiring skills in e-Vehicles, which enhanced my technical proficiency and industry knowledge.

Lenovo

- Completed an internship at Lenovo in Pondicherry, gaining hands-on experience in Assembling, Testing and Package sections.

PROJECTS

Home Automation using IOT: Home automation using IoT (Internet of Things) refers to the use of internet-connected devices to manage and automate household systems and appliances. These devices, which include smart thermostats, lighting, security cameras, and home assistants.

Age and Gender Detector using Machine Learning: Age and gender detection using machine learning involves training models to predict a person's age and gender from visual data, typically images or videos. This process uses convolutional neural networks to extract features from facial images. The training dataset consists of labeled images with known age and gender.

WORKSHOP

- Embedded System and iot in St. Joseph's Institute of Technology.
- Artificial Intelligence and Machine Learning in St. Joseph's Institute of Technology.

CERTIFICATION

- Data Analytics-Prepinsta Prime.
- C programming-Udemy.
- SQL-Prepinsta Prime.
